EXPERIENCE Founders Arthur Elk and David Elk believe by combining skilled trial attorneys, statewide resources and the comfort of a family-operated firm, each client will receive the benefits of zealous representation and personal attention. Elk & Elk has represented victims of personal injury, negligence, medical negligence, wrongful death, products liability and workers' compensation for nearly 50 years in all 88 Ohio counties.

RESOURCES In addition to its trial attorneys, Elk & Elk has on-staff physicians, nurses, accountants, accident reconstructionists, state-certified paralegals and investigators throughout the state. "The appropriate utilization of these resources allow us to provide our clients with fast and reliable service as they deal with the complexities and challenges serious injuries present to their families," says senior partner David Elk.

RESULTS Elk & Elk has assisted its clients in recovering more than \$500 million throughout the last 10 years. "More important than the number is the knowledge that the money recovered is available for our clients' medical bills and wage losses," Kelley explains. "In many cases we utilize trusts, annuities and financial advisers to protect our clients into the future."

LAWYERS' CHOICE A growing number of Elk & Elk's clients are referred by other attorneys throughout the country. "I am proud outside lawyers entrust their clients to our office on complex matters," managing partner Arthur Elk says. "It is a trust we value and strive to maintain daily."

INDEPENDENT RECOGNITION Elk & Elk continues to receive recognition from many independent professional organizations, including four attorneys named among Ohio's top 100 attorneys by The National Trial Lawyers. The independent attorney-rating service AVVO scores multiple Elk & Elk attorneys as 10/10. Further testament to their skills, Martindale-Hubbell lists many of the firm's attorneys as "preeminent," with many scoring a perfect rating.

Elk & Elk's attorneys frequently lecture for both domestic and international legal and medical education courses. Kelley has been asked to review, contribute to and author chapters in several medical textbooks focused on obstetrics and gynecology.
